VINEYARD NOTES

In 1974, Serge left winemaking school and went to work for Monsieur Ricard's family in 1979 to oversee the vineyards. Without anyone in his family to succeed him, Ricard decided to gamble by partnering with Serge in 1982. Ricard retired in 1990.

Given the aridity of the soil, the vines are naturally prone to lower yields which gives the wines their concentration and power.

Each year the Cuvee Traditionnelle is named for one of his daughters, Floureto, Doucinello and Azalais.

Wine and winemaker are wild with an edgy nature, dynamic and filled with spirit and vigor. Serge's wines have everything we love about the Rhone. This wine will not be mistaken for anything else. Aired of cooked red fruits, sleek black fruits, black pepper, notes of leather, spicy garrigue, smoky with fine tannins at the end.
